Infection Control and OSHA Regulations
For the Dental Practice

8:30 am - 9:00 am – check in for Infection Control and OSHA Regulations for the Dental Practice

9:00 am – 12:00 pm – Infection Control and OSHA Regulations for the Dental Practice.

The objectives of this course are to explain the CDC’s IA, IB and IC guidelines and recommendations and discuss how dental practices in Iowa can maintain compliance with the law to provide a safe environment for patients and employees. You will also understand the OSHA regulations and how they apply to the dental practice.

Guidelines for infection control in dental health care settings were published in December 2003 by The Centers for Disease Control and Prevention (CDC). The recommendations and guidelines are categorized on the basis of existing scientific data, theoretical rationale, and applicability. The recommendations in categories IA, IB and IC are required by law in the state of Iowa.

- Discuss ranking of the CDC Guidelines and OSHA Regulations
- Identify personnel health elements of an Infection Control Program
- Understand how to prevent transmission of bloodborne pathogens
- Discuss hand hygiene in the dental practice
- Understand the purpose and limitations of personal protective equipment
- Discuss contact dermatitis and latex hypersensitivity
- Review sterilization and disinfection of patient care items
- Review environmental infection control
- Discuss dental unit waterlines, biofilm, and water quality
- Discuss special considerations, including oral surgical procedures, single-use (disposable) devices and tuberculosis
- Review of hazardous chemical safety
- Understand the OSHA regulations and how they apply to your dental practice.
