Page 7 & 8	July/August Registration Form

Sessions

June College: June 11-15
Session 1: 8:30 – 10:00am
Session 2: 10:15 – 11:45am

August College: July 30 - August 1
8:30am - Noon

If you're busy in June or just want a shorter week, try August Kids in College or sign up for both weeks!

Registration Deadline

June Session: May 25 deadline
August Session: July 18 deadline

Tuition and Fees

- Tuition/fees is \$50 for each class.
- The cost for both morning classes in June is \$100.
- August cost is \$50.
- Fees must be paid at the time of registration.
- Fee includes snacks and most materials.
- Students may be asked to bring some items from home.

A confirmation letter will be sent home in early June listing your classes and locations (mid-July for those registering for August). Every effort is made to allow students to have their first choice for classes. However, some classes fill quickly and others might be canceled if there are not enough registrations.

What is Kids in College?

A summer experience for elementary/middle school students offered by Iowa Valley Community College District and Marshalltown Community School District Extended Learning Program.

Goals

Provides a summer opportunity for students, with instruction not generally available in the regular school curriculum & gives students an opportunity to study a particular subject in-depth.

When will it be held?

Kids in College will be held Monday-Friday, June 11-15, 2018 with two sessions offered 8:30am to 10:00am and 10:15am to 11:45am. The July/August session will be Monday - Wednesday July 30 - August 1 with one session from 8:30-12 noon.

Where?

The Continuing Education Center on the Marshalltown Community College Campus.

Who May Apply?

Kids in College is for students who have completed grades 3-8 by June 2018.

Course Descriptions

Advanced Modular Origami (June)

Pat Byer

This class explores another level of paper folding techniques. Modular three dimensional shapes, such as triangular prism box, Kusudama spinners, transforming boxes, and cubes will be made. Perseverance and patience will be required.

All About Animals (June)

Dr. Danielle Kness

Learn about animals from as small as a beetle to as big as a mammoth! Each day will bring a new variety of animal ambassadors to our class. Join us to learn about the biology of insects, frogs, lizards, birds and mammals. We will also learn about local wildlife and get a visit from some local service animals ***Not for students that are allergic to animals.**

Beginning Chess (June/August)

Gary Van Den Boom

Chess develops the same areas of the brain that are used in reading, mathematics, and creative thinking. In this class, students will learn the rules of chess, opening strategies, and how to record their games.

Bored? Paracord! (June/August)

Janet Kloberdanz

Are you bored....then learn to tie a variety of different knots using colorful paracord to create unique designs of survival bracelets, keychains, and more. This class is for boys and girls. Come in and untie the mystery of knots with us!

Card Tricks to Amaze an Audience (August)

Pat Byer

"Pick a card, any card, and I will tell you which card you chose." If you would like to learn how that trick is performed and many more, sign up for this class. Card tricks will improve your focus and concentration as well as wow everyone. **Students must bring their own deck of cards.**

Creative 3-D Concepts, Sculpture & More! (June)

Betty Kadner

If you like to work with your hands and use found objects in new and creative ways to produce really cool 3-D or sculptural forms, and have FUN, this is the class for you! You will challenge your imagination, learn about famous sculptors and how different their work is, make several types and sizes of sculpture, and collaborate with others to make at least one large sculpture to be on display.

Dirt + Sunshine + Food = Fun with Gardening! (June)

Robin Antcil

Gardening is a fun hobby for kids who enjoy being outside, learning about science (biology, entomology, meteorology and more!), and eating! We will spend most of our time outside, and each child will take home several garden projects to share with their families. We'll also sample some tasty home-grown items and share recipes that kids can make at home.

Harry Potter (June/August)

Alex Klyn

Have you ever wondered which Harry Potter house you belong in? Come find out! Compete in challenges that involve genetic traits, potions, monsters, and herbology against the other houses. Plus, compare and contrast scenes from the first movie and book. **Required: Read *Harry Potter and the Sorcerer's Stone* by J.K. Rowling prior to the first day.**

International Cooking (June/August)

Susan Garrels

Students will be preparing and eating authentic foods from the countries of Russia, Australia, China, Italy and the Caribbean. You will also have exposure to many cookbooks for menu planning, fancy linen napkin folding, and learning how to properly set a table. Safety and vocabulary related to cooking will be stressed. Each student will bring a recipe from home to share. Your family will love your new cooking skills!

Kaleidoscopes (June)

Laura Fricke

Students will be learning about symmetry and how it works in kaleidoscopes. You will visit online resources to learn about symmetry in our world around us. You will use software to create artwork with symmetry. Your final product will be a kaleidoscope of your own to take home.

Make Your Drawings Look 3-Dimensional with Shading and 1-Point Perspective (June)

Betty Kadner

Wow your friends and family with your realistic drawings and paintings by learning how to shade in black and white and color. These drawings can be something real, such as a pet, or a fantasy drawing. You will also learn the basics of 1-point perspective to be able to draw rectangular forms such as buildings, etc. You will then put your knowledge together to make that "WOW!!" art work.

More 3-Dimensional Drawing with Shading, 1-Point & 2-Point Perspective (June)

Betty Kadner

Do you ever wish your drawing would look more 3-dimensional or realistic? If so, you will be excited to see what a difference shading and perspective make. If you are a beginner or you took the shading class in June, you will learn how to sketch, shade, and draw 1- point or 2-point perspective, which will make the art appear more realistic and WOW your family and friends.

Mythbuster Explorations (June/August)

Mark Monroe

Fun (safe) classroom experiments to test questions like "can a helium filled rubber raft fly?" and "can someone escape from a roof on a rope made from toilet paper?"

Origami (June)

Pat Byer

Students will learn the techniques of folding paper. Class instruction will include both traditional and contemporary models. We will make journals, transforming ninja stars, containers, as well as a wide variety of animals. If you have ever been frustrated while trying to fold a crane, take this class and learn the secrets to origami.

Quilling (June)

Laura Fricke

Quilling or paper filigree is an ancient art form that involves the use of strips of paper that are rolled, shaped, and glued together to create decorative designs. You will create shapes which make up designs to decorate greeting cards, pictures, boxes, eggs, and make 3D artwork.

Take the Challenge (June/August)

Rachael Koehler

Spend the morning on an Adventure Course unlike any other in Iowa. Swing through the air, climb the giant tower, get through the spider's web. Sound like more fun than learning? Cooperative games emphasize participation, communication, cooperation, and teach leadership skills. **This class is one session and meets 8:30 – 11:45 am.**

Water Rocks! (June)

Ann Staudt

Dive in and make a splash with Water Rocks! Get ready for high-energy + hands-on FUN, combining science with games and activities that explore the amazing world around us. Each day will feature a unique environmental theme, ranging from water and wetlands to soil, biodiversity, and ecology.

What it takes to be a Vet (August)

Dr. Danielle Kness

Ever dreamed of being a veterinarian? Gain first-hand experience in the world of veterinary medicine. Learn about animal anatomy, how to care for a sick patient, apply a bandage, how to give injections & much, much more!!

Welding Garden Art (June)

John Patterson

Do you like to use tools? Interested in learning how to weld? You will tack weld pieces to make garden art and decorate the art. You'll also have an opportunity to practice welding on a simulator.
