

Welding skills can spark a new career or career advancement!

Welding for Garden Art

Learn basic welding techniques for stick & wire welding along with oxyacetylene cutting & bending, & brazing as you create a delightful garden creature. No prior welding experience necessary. Get ideas for projects & where to purchase materials. May bring your own steel objects to weld into your project with instructor's approval.

Course # IND 2448.4 \$155
6/15 - 6/29 Thurs. 5:30 - 8:30 pm
Instr: Wesley Dierschow

Career Pipe Welding

Short-term training for a great paying career! This 11 week welding course offers two welding processes: Alliant Energy and AWS pipe procedure. This will prepare you for a career in pipe welding with SMAW. Topics include safety; techniques such as freehand; pipe fitting techniques including preparation and beveling. Instructor is a certified welder. Students will have the opportunity to certify at an additional cost. Must have a basic knowledge of SMAW (stick) welding process or have taken IND 2200 Pre-Pipe Welding course.

Tuition assistance is available to qualifying and selected students. Contact Jennifer Rice in Marshalltown 641-844-5629.
