Test Day:

- Go about your normal daily routine.
- Eat a light meal.
- Don't over use/under use caffeine (do what you would do during as if you didn't have a test that day).
- Minimal review of material (we tend to remember the mainly the last things we read so too much review could make you forget some of the material and only be focused on a specific topic/idea).

- Example Study Techniques. (Mix and Match!)
- Create an outline.
 - Re-read lecture slides, elaborate and add notes. (Which lectures?)
 - Review class notes, rewrite key points.
 - Compare/go over notes with a friend/study group, find out what you missed.
 - Read Chapter Summary and Key terms.
 - Do practice test(s), in a test-like setting.
 - Fill out/answer study guide, from memory first, then with notes/book.
 - Compare lecture notes with notes taken from the text (and/or other outside resources) to see what points are emphasized in both sets of materials, and also the information that is not stated in one but the other.
 - Visit office hours with questions.
