

Exit counseling information for federal student loans

Exit counseling is required for all borrowers of federal student loans once they have ceased attendance at MCC or are no longer enrolled on at least a half-time basis (6 credit hours or more). Notification to complete the exit counseling is delivered either in person, through email or texting, or regular mail and contains instructions on how to access the online, interactive counseling. Students are instructed to complete the exit counseling at the [U.S. Department of Education's Federal Student Aid website](#).
