AGB235 Introduction to Agriculture Market (ECC course) 3 credits
Reviews the principles of basic economics and consumerism, addresses the movement of the physical commodity through marketing to the consumer, and stresses alternatives available to the producer. Course project is required.

AGB330 Farm Business Management (ECC course) 3 credits
Business and economic principles applied to decision making and problem solving in the management of a farm business, cash flow, partial, enterprise, and whole farm budgeting. Information systems for farm accounting, analysis, and control. Obtaining and managing land, capital, and labor resources. Alternatives for farm business organization and risk management.

AGB336 Agriculture Selling (ECC course) 3 credits
Provides novices with the basics for effective selling presentations: Handling objections, using pitch books, effective utilization of features and benefits, and asking for the order.

AGS113 Survey of the Animal Industry (ECC course) 3 credits
Processes and principals involved in animal production and management (an introduction to livestock enterprises and related industries).

EDU160 Human Growth and Development (MCC course) 3 credits
Examines physical, social, and cognitive development from conception to death, utilizing current research.

MAT156 Statistics (MCC course) 3 credits
Descriptive statistics, probability concepts, binomial and normal distribution and introduction to inference.

MAT210 Calculus I (MCC course) 4 credits
Limits, continuity, derivatives, applications, integration.

MAT216 Calculus II (MCC course) 4 credits
Inverses; logarithmic, exponential and trigonometric functions; techniques of integration; infinite series.

PSY111 Introduction to Psychology (MCC course) 3 credits
Basic concepts, methods and principles of the study of behavior and mental processes.

PSY241 Abnormal Psychology (MCC course) 3 credits
Prerequisite: PSY111
History, classification, diagnosis, and treatment of mental illness. Includes discussion of etiology, prevention, and legal/social issues.

PSY251 Social Psychology (MCC course) 3 credits
Examines theoretical and empirical approaches to understanding the individual as a member of society, including the development of attitudes, social behavior, group processes, motives, attitudes, norms, and the socialization process.

- **WEL103 Oxy-Acetylene Welding & Brazing (MCC course)**
  - **Credit(s):** 1
  - **Type:** CAREER AND TECHNICAL
  - Description: Fillet welds and brazing in the flat and horizontal positions. Oxy- Acetylene equipment safety, storage and nomenclature

- **WEL228 Welding Safety/Health (MCC course)**
  - **Credit(s):** 1
  - **Type:** Career and Technical Credit Type
  - Description: This course will provide students with orientation to the welding profession and will cover the basics of safety and health within the welding profession

- **WEL233 Print Read/Sym Inter (MCC course)**
  - **Credit(s):** 3
  - **Type:** Career and Technical Credit Type
  - Description: Provides instruction in interpreting elements of welding prints (drawings or sketches), focusing on measurement, American Welding Society welding symbols, and fabrication requirements. Students will understand how to prepare, assemble and tack welding parts according to drawings or sketches, using proper materials and tools.

- **WEL244 GMAW Sh Cir Transfer (MCC course)**
  - **Credit(s):** 3
  - **Type:** Career and Technical Credit Type
  - Description: Focuses on proper weld safety, machine set up and welding techniques of Gas Metal Arc Welding Short-Circuiting Transfer. Students perform American Welding Society compliant welds on carbon steel, in flat, horizontal, vertical and overhead positions. This course will prepare students to take an AWS welder certification test, which is recommended.

- **WEL262 OFC-I Manual and Mech (MCC course)**
  - **Credit(s):** 3
  - **Type:** Career and Technical Credit Type
  - Description: Focuses on proper safety, equipment setup and cutting techniques for manual and mechanized Oxyfuel cutting on carbon steel. Students perform American Welding Society compliant cutting operations in the flat position. The student will also perform scarfing and gouging operations to remove base and weld metal in flat and horizontal positions on carbon steel.

- **SDV135 Job Seeking Skills (MCC course)**
  - **Credit(s):** 3
  - **Type:**
  - Description: Effective techniques to secure work that matches skills, interests, and goals in a competitive job market

- **WEL245 GMAW Spray Transfer: SENSE1 (MCC course)**
  - **Credit(s):** 2
  - **Type:** CAREER AND TECHNICAL
  - Description: Focuses on proper weld safety, machine setup and welding techniques of Gas Metal Arc Welding Spray Transfer. Students perform American Welding Society compliant welds on carbon steel in flat and horizontal positions. This course will prepare students to take an AWS welder certification test, which is recommended for its successful completion. It aligns with SENSE Level 1 Module 5 Key Indicators 1, 2 and 8-12, as well as Module 2 - Indicator 7, Module 3- Key Indicator 3, and Module 9 – Key Indicator 2.

- **WEL263 PAC/CAC: SENSE1 (MCC course)**
  - **Credit(s):** 2
  - **Type:** CAREER AND TECHNICAL
  - Description: Focuses on proper safety, equipment setup and cutting techniques for Plasma and Carbon steel Arc cutting on carbon steel, austenitic stainless steel, and aluminum. Students perform American Welding Society compliant cutting operations in the flat position. The student will also perform scarfing and gouging operations to remove base and weld metal in flat and horizontal positions.
positions. This course aligns to SENSE Level 1 Module 8 - Units 3 and 4, as well as Module 2 – Key Indicator 7 and Module 9 – Key Indicator 1.

WEL274 SMAW I: SENSE1 (MCC course) 3 credits
CAREER AND TECHNICAL
Focuses on safety, amperage settings, polarity and the proper selection of electrodes for the shielded metal arc welding process. Students will perform American Welding Society compliant welds on carbon steel, using visual and destructive methods for determining weld quality. This course aligns to SENSE Level 1.

WEL280 FCAW Self-Shielded: SENSE1 (MCC course) 2 credits
CAREER AND TECHNICAL
Focuses on proper weld safety, machine setup and welding techniques for Flux Cored Arc Welding Self-Shielded. Students perform American Welding Society compliant welds on carbon steel in flat, horizontal, vertical and overhead positions. This course will prepare students to take an AWS welder certification test, which is recommended for its successful completion. It aligns to SENSE Level 1 Module 6 - Key Indicators 1, 2 and 8-12, as well as Module 2 - Key Indicator 7, Module 3- Key Indicator 3, and Module 9 – Key Indicator 2.

WEL281 FCAW Gas-Shielded: SENSE1 (MCC course) 2 credits
CAREER AND TECHNICAL
Focuses on proper weld safety, machine setup and welding techniques for Flux Cored Arc Welding (Gas Shielded). Students perform American Welding Society compliant welds on carbon steel in flat, horizontal, vertical and overhead positions. This course will prepare students to take an AWS welder certification test, which is recommended for its successful completion. It aligns to SENSE Level 1, Module 6 - Key Indicators 1-7, as well as Module 2 – Key Indicator 7, Module 3- Key Indicator 3, and Module 9 – Key Indicator 2.

Information about CEP Courses
-an agreement between MHS and MCC/ECC

Registering for MCC credit
All students must register through the high school counseling office. The High School Student Application/Registration form must be submitted to the MCC Admission’s Office.

Earning credit
A student enrolled in dual credit earns both MHS and MCC/ECC credit. Montezuma Community School District pays for the college credit(s). Take each class seriously, remembering that the grade(s) will be permanently recorded on an official college transcript that follows throughout all college endeavors.

Dropping a class
For a student to drop a college credit class, two drop forms must be completed: one for MHS and one for MCC. MHS counselors have the MCC drop slip, which requires the signature of the instructor and the high school counselor. The MHS Counseling Office collects and mails the drop slips to MCC. The last day to drop 2017-18 courses, through the College, is November 17 (Fall semester) and April 13 (Spring semester).
Failing a class
The failure of a pupil to complete or otherwise receive credit for an enrolled course requires the pupil to follow the individual procedures of his/her school.

Transferring the credit to another college
A student must request the transfer of credit by submitting a transcript request form to the MCC and/or ECC Registrar’s Office (as listed above, the agriculture courses are offered through ECC). The form is available at the Registrar’s Office or online. Access the MCC request form at https://mcc.javalley.edu/resources-for-students/registrars-office/ and the ECC request form at https://ecc.javalley.edu/resources-for-students/registrars-office/.

The College charges a minimal $5 processing fee to send a transcript. The student must pay this fee; Montezuma Community School District does not pay this fee. The transcript may be sent immediately or select 'send at the end of the term' to ensure all grades are posted on the transcript. The MCC Registrar’s Office and the ECC Registrar's Office operate independently. If you’ve taken classes through both, you’ll need to contact both offices to request that a transcript be sent from each institution. As you submit college applications, you need to indicate that you have transfer credits.
