 - Zander Stupp – Senior at MHS - “I was able to save a lot of money by taking advantage of being able to take college classes in high school. I'll graduate with a two-year Engineering transfer degree and my high school diploma, paying only for one summer class.”

- Marvea Harvey – East Marshall - “Taking college classes during high school has been incredibly valuable. It's helped me prepare for the harder classes when I will be a full-time college student and taught me essential time-management skills. Plus, I've saved a significant amount of money.”
