

Iowa Valley Community College District

Dual Credit Student Manual

Policies & Procedures 2022-23

Introduction

Welcome to Iowa Valley Community College District! The purpose of this manual is to familiarize you with the policies and procedures at IVCCD (which operates Ellsworth Community College in Iowa Falls, Marshalltown Community College, and Iowa Valley Grinnell). The idea for this manual came from previous dual credit students and their suggestions to improve the process and our communications with you. We recognize that for some of you this is your first dual credit course, while others may have previous experience. We hope this manual will serve as a reference, providing helpful information to make your experience with us very positive.

We encourage you to particularly focus on the FAQs and Campus Resources sections ... many of your questions may be answered there. If not, please be sure to seek out the answers you need. Your success is our goal!

IVCCD Mission Statement

Iowa Valley Community College District is committed to providing quality learning experiences, ensuring student success, responding to diverse community needs, and building community partnerships.

IVCCD Vision

We will serve our communities as the essential catalyst for educational and economic vitality.

Tina.Wesselmann@iavalley.edu

Dual Credit: Earn College Credit While in High School

Students may earn college credit while in high school, saving the cost of tuition and saving time by getting ahead in college credits. The classes are FREE to students – the high school pays the tuition and fees. Taking college classes while in high school allows students to explore an academic or career field, as well as get an idea of what college coursework entails.

Planning ahead as a high school freshman will allow the optimum scheduling options. In some cases, students can earn up to a full year or more of college credit while in high school, allowing them to enter college as a sophomore!

Generally if a student has taken all available related coursework, the high school will allow him/her to enroll in a dual credit course. Also a high school will often approve a college course not offered by the high school.

There are three ways students may earn college credit: Concurrent, CLEP (College-Level Examination Program), and AP (Advanced Placement). To earn college credit while still in high school, contact your high school guidance counselor for more information and enrollment forms.

Dual Credit Options

1. Concurrent Enrollment Program (CEP)

Concurrent Courses at the high school

Definition: CEP courses are located at the high school and are taught by qualified high school instructors (CEP Adjuncts). Course opportunities are available when enough high school students enroll to constitute a class.

Dual credit: Students earn both college credit and high school credit.

Cost: The high school pays the tuition and fees per course. The textbook policy varies by high school.

Reminder: Your effort to withdraw early, if necessary, is greatly appreciated by both your high school and the college.

Class Schedule: Check with your guidance counselor for a list of classes available at your high school.

Course Enrollment: If interested contact your high school guidance counselor to enroll. You will submit the High School Student Application/Registration form to the ECC or MCC Admissions Office. Some courses have a cut score requirement (see Dual Credit Registration Process).

Books: Textbook(s) vary depending on course.

Concurrent Courses online

Definition: Online courses are accessed through the Blackboard online learning system.

Dual credit: Students earn both college credit and high school credit.

Cost: The high school pays the tuition and fees per course. The textbook policy varies by high school.

Reminder: Your effort to withdraw early, if necessary, is greatly appreciated by both your high school and the college.

Class Schedule: Check with your high school guidance counselor to request a list of approved online course options.

Course Enrollment: If interested contact your high school guidance counselor to enroll. You will submit the High School Student Application/Registration form to the ECC or MCC Admissions Office. Some courses have a cut score requirement (see Dual Credit Registration Process).

Books: book(s) vary depending on course. Check with your high school to know how they are handling the required books.

Career Academy Courses

Definition: High school students enroll in college courses within the career and technical field. Career Academies are beneficial to students who are interested in the vocational field and want to begin college coursework while in high school. Course sequences with a career theme are offered in one or two hour blocks of time at high school campuses, online, and on college campuses. Current fields of study offered include:

Ellsworth location:

- Agriculture/Swine Management
- Biotechnology
- Business and Information Technology
- Health Occupations
- Paraeducator

Grinnell location:

- Agriculture Business
- Animal Science
- Automotive Technology
- Business Administration
- Gunsmith Technology
- Health Occupations
- Paraeducator

Marshalltown location:

- Broadcasting/Mass Media Studies
- Business Administration
- Computer Network Mgmt. & Technology
- Culinary
- Education
- Health Occupations
- Advanced manufacturing
- Machine Tool Technology Tool & Die
- Utility Technician
- Welding

Dual Credit: Students earn both college credit and high school credit.

Cost: The high school pays the tuition, books and fees per course.

Reminder: Your effort to withdraw early, if necessary, is greatly appreciated by both your high school and the college.

Class Schedule: Check with your high school guidance counselor for a brochure with a list of specific classes and a timeline of when they are offered.

Course Enrollment: If interested contact your high school guidance counselor to enroll. You will submit the High School Student Application/Registration form to the ECC or MCC Admissions Office. Some courses have a cut score requirement (see Dual Credit Registration Process).

Books: The required course textbook(s) will be available per high school policy. The books for career academy courses are the property of your school district and should be returned at the

end of the class. Some materials that are consumed during the course may need to be purchased by the student

2. CLEP (College-Level Examination Program) Credit

Definition: CLEP Tests are designed to provide able students an opportunity to secure college credit through testing. Through this program, students are able to shorten the time required to earn a degree, lighten the academic load, and receive credit for previously attained knowledge and save money.

Credit: IVCCD administers the CLEP exam. Students who receive a qualifying score earn college credit. A student who is proficient within an academic area, for example Spanish, should consider the CLEP.

For information on CLEP tests, contact Daniel Key, Academic Advising Specialist, MCC at 641-844-5710 or Daniel.Key@iavalley.edu.

3. AP (Advanced Placement) Credit

Definition: Designed for high school students who have demonstrated competence by achieving at a high level in college preparatory courses. AP courses provide an in-depth study that is accelerated above and beyond the work typically done in “regular” high school courses.

Credit: *To receive ECC or MCC college credit, students must pass an Advanced Placement test after completing the course.* The tests are administered at the high school, with results forwarded to one or more colleges as selected by the student. Depending on the test score, a student may or may not receive college credit for the AP course.

Cost: The student must pay for the cost of the AP exam, administered at the high school.

AP Classes Schedule: Contact your high school. Course options vary, but typically include AP Psychology and AP Economics.

Course Enrollment: Since the classes are a part of the regular high school curriculum, students must register during their regular high school registration. Contact your high school guidance counselor for more information.

Dual Credit Registration Process

Senior Year Plus: Student Eligibility Criteria

Students planning to enroll in career and technical education (CTE) courses delivered via concurrent enrollment are now exempt from Iowa Code section 261E.3(1)e – the requirement that students demonstrate proficiency on the Iowa Assessments in reading, math, and science. With the passage of the bill, students do not need to demonstrate proficiency in reading, math, and science to concurrently enroll in **career and technical courses**, but they must continue to demonstrate proficiency to be eligible to enroll in other concurrent enrollment courses. All students must continue to meet any expectations set by the community college (e.g., placement exam cut scores, prerequisites) to be eligible for concurrent.

Registration Process for IVCCD Courses

Once a student has met the state proficiency requirements, the student will complete the online High School Student Application on the ECC or MCC websites. Mcc.iavalley.edu and ecc.iavalley.edu.

Certain courses, such as math and English, have test score requirements/pre-requisites. ACT, ACCUPLACER Next Gen are accepted to meet those requirements.

Prior to the term, dual credit students receive a dual credit letter to confirm their registration and policies/procedures. The high school counselor receives multiple lists to confirm ongoing dual credit registrations.

IVCCD Test Score Requirement Process

1. Submit test scores required for desired course. For example, a student who wants to register for English Composition 1 needs to achieve a minimum writing score on one of the following assessments: 250 ACCUPLACER, 60 COMPASS, 18 ACT, or 15 PLAN (see chart on next page).
2. If the Admissions Office does not have a student's test scores on file, the registration form will not be processed until those scores have been received. The high school guidance office needs to send the scores to Admissions or, if the student has not tested, schedule to take necessary portions of the COMPASS at the College.
3. If the student does not meet the minimum standards for ACT or PLAN scores, they can re-test with the COMPASS test or take a challenge test in the area of interest. Challenge test requires a 70% pass rate for enrollment. In rare situations, at the point where the student does not meet the challenge test requirements; the counselor may submit an Acceptance of Responsibility in Regard to Academic Course Placement Form to the Registrar with reasoning why the student should be able to take the course.

Counselor Information

- Please look closely at weekly updates of student enrollment.
- Remember, if you drop a student in a course that meets on your campus, you must notify ECC or MCC to have the course dropped from the ECC or MCC transcripts as well.
- To be fair when registering students for Career Academy courses, each high school will be allowed one seat per program. Registration for the program will begin on April 1st.
- As per the ADA, students taking courses at ECC and MCC are eligible for reasonable accommodations, per an IEP or 504 Plan. For more information contact: ECC - Wanda Koehrsen, TRIO Coordinator/Student Success Specialist at Wanda.Koehrsen@iavalley.edu or at MCC - Martha Schwandt, Learning Services Specialist at Martha.Schwandt@iavalley.edu

for more information.

*COMPASS College Algebra Score of 60-100 AND Trigonometry Score of 51-100 OR ACT Math Score ≥28 for MAT210				
*This is not a pre-requisite for the course. Only a guideline				

Frequently Asked Questions

1. **What services are available to me?**

As a high school student you have access to all campus resources and student services, including athletics and student activities. See the Resources section for more detailed information.

2. **How do I obtain my course textbook(s)?**

Course textbooks will be available to the student per individual high school policy and are the property of your school district. **See your high school counselor for information.**

3. **How do I contact my instructor?**

Each instructor is available to answer student questions. They will often provide office hours, email and phone number in a course syllabus or post them on their office door.

4. **What about transportation to the college?**

Students are responsible, unless the high school has other arrangements.

5. **How do I check my grades?**

To access grades; go to the district website: ECC - <https://ecc.iavalley.edu> and click on "Paw Pass" or MCC - <https://mcc.iavalley.edu> and click on "Paw Pass". Click on the "Student Information System" link. Enter your ID number (ID number is located on student photo ID card) and the Password is your date of birth (8-digit format without spaces or dashes). Click "login" and then select the "Student" tab. Be sure to "log out" when finished. More information about your Iowa Valley Online account is available in the resources section.

6. **Is my grade permanent?**

Yes! It is very important to remember that these classes are dual credit: students receive high school **and** college credit. You are starting/adding to a college transcript. **Take each class seriously, remembering that your grade(s) will be permanently recorded on an official college transcript that follows throughout your college endeavors.**

7. **Do you offer internet classes?**

Internet classes are available as a course option for concurrent enrollment students.

8. **May high school freshmen and sophomores take college credit classes?**

Yes, in some cases, but permission is needed from the high school as well as the appropriate placement testing score if applicable. All dual credit registrations must be processed through the high school guidance counselor.

9. **Is there a limit to the number of credits I may earn in one year?**

Yes. According to Senior Year Plus legislation, a school district cannot pay for a high school student to be enrolled in college credits on a full-time basis. Full-time status is defined as a student who completes 24 credits or more between fall and spring semesters. The college will work with students, however, to bill them for additional courses that put them beyond 23 credits if they chose to take more.

10. **What about summer classes?**

Summer classes are available to high school students. Students are responsible for all costs during the summer terms. Submit the High School Student Application/Registration form and indicate "Self-pay" as the *Type of Class*.

11. **What if I need to withdraw from a course?**

To make changes to the class schedule, students must submit an Add/Drop Form to the MCC or ECC Registrar's Office. The Registrar's Office will also accept a drop request email from the guidance counselor. Students who simply stop attending classes and do not officially withdraw are still enrolled for the course. If withdrawal is necessary, try to do so early in the semester so that your school may be eligible for a partial tuition refund. You will follow your school

procedures and may need to reimburse your high school for the remaining amount of tuition not refunded by IVCCD.

12. What if a student drops or fails a class?

Each student must follow the individual procedures of his/her school.

13. How do I transfer credits to colleges other than ECC, MCC, or Iowa Valley Grinnell?

Students must complete a transcript request form and submit it to the ECC or MCC Registrar's Office. There is a \$5 minimal processing fee for transcripts. The high school does not pay this fee. Access www.TransferInIowa.org to learn how IVCCD credit will apply toward a degree at Iowa State University, the University of Iowa, or the University of Northern Iowa they should check the university's website for information on transferring credit.

For vocational credits, such as those awarded for participating in the Career Academies, a total of 16 credits can be transferred as electives to Iowa State University, the University of Iowa, or the University of Northern Iowa.

14. What if I want to continue full-time after graduation as an ECC or MCC student?

We hope you'll choose to continue your education with us! Each student must complete the admissions process in order to be accepted after high school. The three requirements include:

- a. Complete an Application for Admission
- b. Send official high school transcripts
- c. Submit ACT or Compass test scores

15. Where do I access the Catalog or Student Handbooks?

All resources are available online. For ECC, go to <https://ecc.iavalley.edu/academics/college-credit-for-high-school-students/>. For MCC, go to <https://mcc.iavalley.edu/academics/college-credit-for-high-school-students/>.

Academic Integrity Procedures

Consistent with College policy, cheating, the appearance of cheating, and plagiarism in classes will not be tolerated. For purposes of all classes, cheating includes but is not limited to the use of calculators with programmable text used during exams if the text function is used, using study 19 sheets or other written material during the exams when it is a closed book exam, using another student's answers with or without their knowledge, or supplying answers, and the use or appearance of use of other restricted items. When a student is found cheating on any assignment the penalty will be at the discretion of the instructor's policy, but it could range from awarding zero points for that assignment/exam to failing the course. Further exams taken by that student will be under the direct supervision of the instructor at a time and place designated by the instructor. Violations of the academic integrity policy are subject to Student Code of Conduct processes. For any offense of plagiarism or academic dishonesty in a College course, the instructor shall document such offense for the College academic administrator. Upon sufficient proof of such incident, the student's file will be documented. The instructor, according to the course syllabus, will be free to pursue a failing grade for the assignment, a redone assignment, or some similar action with the student. For any second documented offense in any College course, the instructor will be notified of earlier documented offenses. A recommendation that the student should receive a failing grade for this course shall be made to the instructor upon sufficient proof of academic dishonesty. For each offense, the student maintains a right of appeal according to the Code of Student Conduct (Per Board Policy 520A)

Campus Resources

As a dual credit high school student, you have access to all campus resources and student services. Dual credit students receive the same services as all other college students.

Student ID card

Obtain your Student ID at the ECC or MCC Registrar's Office or at the front desk at Iowa Valley Grinnell. The ID card has your student ID number and allows access to many resources, including library check-out, athletic and students' events, and more.

Canvas

All online and some on-campus courses utilize this online learning system; the link to Canvas can be found on Paw Pass.

Paw Pass

The Paw Pass web page contains frequently used links at www.mypawpass.com. As a dual credit student, you'll find the following Paw Pass links to be most relevant:

1) Student Information System

Your Iowa Valley online student account provides important information. To log in, enter your ID number (located on your student photo ID card) and password (your date of birth, 8-digit format without spaces or dashes). Click "log in." From this page you are able to access your class schedule, grades, faculty schedules, course schedules, and much more. Be sure to log out when finished.

2) Blackboard Online Learning System

All online classes are conducted within this system. Some instructors also utilize Blackboard for their on-campus courses. To access your course content, log in using your ID number as the username; password is your date of birth. Be sure to log out when finished.

3) Password Reset

Access this resource if you're having trouble logging in or would like to reset your password.

4) Helpdesk

Need assistance? Email: helpdesk@iavalley.edu.

Support Services: Your success is our goal!

The key to meeting college demands is being knowledgeable about and using the resources available to you. Both ECC and MCC have a caring and helpful staff within many service areas. Assistance is available in the following areas:

- Academic Advising
- Career & Employment Services
- Library Services
- Students with Disabilities
- Success Center/The Hub = FREE tutoring!

Athletics

Athletics are a vital and exciting part of college life. ECC intercollegiate programs include baseball, men's and women's basketball, cheerleading, football, softball, volleyball, and wrestling. MCC offers baseball, men's and women's basketball, dance team, men's soccer, softball, and volleyball. Using your Student ID card, you are admitted FREE to athletic events.
