

Start Here, Finish Here!

You have already made the right decision to start college early by taking advantage of Concurrent Enrollment courses while in high school. Make another great decision by staying at MCC to finish your first two years!

Invest in Your Future

With Concurrent Enrollment courses being paid for by your high school you have already saved money. You can continue to save money by finishing your first two years at MCC at a fraction of the cost that a university or private college costs.

**MARSHALLTOWN
COMMUNITY COLLEGE**

\$ 7,328

REGENT UNIVERSITY

\$ 11,283

**PRIVATE COLLEGE
IN IOWA**

\$23,828

(Tuition and fees for one year)

Improve Your Success After High School

Did you know that students who complete their first two years at a community college have a better chance of completing their degree than their peers who went straight to a four-year school? It may be the smaller class sizes, the individual attention from instructors, the chance to get hands-on earlier. It's different for each student, but the results are the same. Students who start here, do better in their next steps. And that's something to celebrate!

College Experience

The thought of a large campus spread over miles and being a face in the crowd can be intimidating. You can experience college life - complete with athletics, dorm life, and activities - at a two-year school, before diving into university life.

You Are Closer to a Degree Than You Think

MCC wants to help you get on the right educational path. We can walk you through the courses you need to achieve the degree you are working towards. Whether a year, a semester or even just one class, you may be closer than you think to earning your first two years and an Associate's Degree.
